## K-91E

User's instructong for all-purpose air conditioner remote controller

### Product Introduction

Model K-91E ALL-purpose AIR Conditioner Remote Controller has been designed to remotely control various brands and models of the air conditioners. This product is characteristic of point-to-point fast brand searching and automatic digital code searching with low power consumption, complete functions, long transmission distance, easy setting, simple operation and fresh visual appearance and comfortable hand feel which can facilitate you with unlimited convenience. The product has a large LCD screen which provides easy setting and operation. It has built-in dock, on/off timer which have facilitated more convenience for you.

### Panel Description:

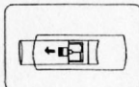

### Remarks:

#### Fast Cool/FAST HEAT:

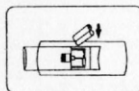

- Press "Fast Cool" key to automatically set the machine as refrigerating mode, 23°C, middle wind, automatic blowing direction.
- Press "FAST HEAT" key to automatically set the machine as heating mode, 27°C, middle wind, automatic blowing direction.

### Battery Installation:

1. Remove the battery cover of the remote control, install two new 7# batteries.

2. Install the battery cover. The timer will appear in the left corner of LCD display.

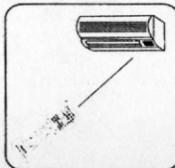

### Setting of Remote Control

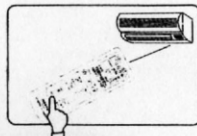

This remote controller has four setting modes that are marked as A/B/C and D. Please select one mode for operation.

### The brand corresponding point-to-point fast searching

1. Manually plug-in the air conditioner, aim the remote control at the receiving window of the air conditioner

2. Press the code key that corresponds to your brand and hold until the air conditioner is started by giving out a sound signal. Release the key and the setting is completed.

### Table of brand corresponding keys

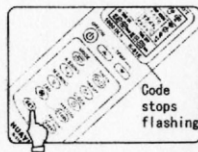

MODE 	TIME ON 	TIME OFF 	FAN 
GREE HUALING	KELONG MITSUBISHI	CHIGO MD	TOSHIBA PANASONIC
A SWING 	M WING 	FAST COOL 	FAST HEAT 
Haier HISENSE	LG SANYO	DAKE/CHANGHONG SAMSUNG	HITACHI SHARP/HUABAO

### Manually input code

1. Manually plug-in the air conditioner, find the type of the air conditioner in the "Code Table", and find the desired code flicker in the window. For example: "Haier"

Brand	Code
Haier	000-024

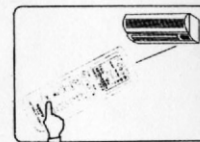

3. Press "SET" button and the selected conditioner type code will stop flickering.

2. Hold "SET" button (for about three seconds) until the conditioner type code flickers in the window. Temperature "▲" or "▼" buttons until the desired code flicker in the window. When the code is right, the air conditioner will start.

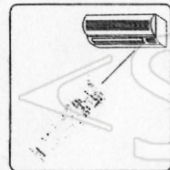

Test whether the remote control button has been effective set. If yes, setting completes. And if no, repeat steps 2-3.

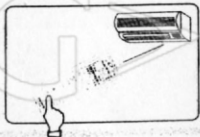

### Manually intelligence search type

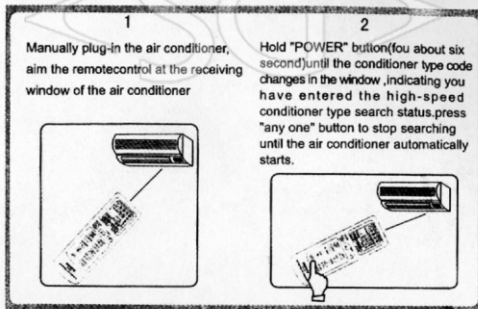

1. Manually plug-in the air conditioner, aim the remote control at the receiving window of the air conditioner

2. Hold "SET" button (for about six seconds) until the conditioner type code changes and close the code you need. Release the "SET" button indicating you have entered the manually intelligence conditioner type search status. Press "SET" button to stop searching until the air conditioner automatically starts.

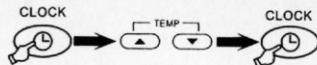

## D Digital automatic search type

## Set Timer Function

Press CLOCK but ton (for three seconds) to enter the clock setting status ,and the clock will flicker. Use the Temperature ▲"or"▼" buttons to adjust the current time, and press CLOCK button again to exit setting.
